*The Genesis of Geopolitics and Friedrich Ratzel* Alexandros

Stogiannos 2018-10-29 This book discusses the influence of Friedrich Ratzel's ideas in more contemporary geopolitical analytical systems and the geodeterminism commonly attributed to him. The author thoroughly analyzes the structural components of Ratzel's thought. The research

is inspired by the numerous contradictory approaches in the secondary literature, presenting Ratzel as both humanist and racist, geo-determinist and multidimensional analyst, organicist and social scientist, precursor of Geopolitics and opponent to the same idea. In this work, more particular issues are approached: the establishment of a scientific Political Geography; the methodological approach of his multidisciplinary work; the redefinition of his geopolitical period; his notion of state and the evaluation of sociological and cultural parameters as factors of state power; the biogeographical content of the

notion of Lebensraum; his attitude towards the racist theories as well as towards the Darwinian theories; his overall worldview and the confrontation with cosmopolitanism; his contribution to an interdisciplinary, positivist and scientific approach in analyzing social and international affairs; his thoughts on the architecture of Europe. The book will be useful for researchers and students in many scientific fields, such as International Relations, Geopolitics, Geography and History of Geography.

Economic Sophisms ; and, What Is Seen and What Is Not Seen Frédéric Bastiat 2016-07

This volume, the third in our Collected Works of Frederic Bastiat, includes two of Bastiat's best-known works, Economic Sophisms and the pamphlet What Is Seen and What is Not Seen. Both Economic Sophisms and What Is Seen and What Is Not Seen share similar stylistic

features and were written with much the same purpose in mind, namely, to disabuse people of misperceptions they might have had about the benefits of free trade and free markets. Economic Sophisms and the other writings in this volume show Bastiat as his creative journalistic best: his skill at mixing serious and amusing ways of making his arguments is unsurpassed; the quality of his insights into profound economic issues is often exceptional and sometimes well ahead of his time; his ability to combine his political lobbying for the Free Trade Movement, his journalism, his political activities

during the 1848 Revolution, and his scholarly activities is most unusual; and the humor, wit, and literary knowledge that he scatters throughout his writings demonstrate that he deserves his reputation as a most gifted writer on economic matters, one who still deserves our attention today.
