Academic Evaluation K. Hyland
2009-08-12 This book explores how academics publically evaluate each others' work. Focusing on blurbs,

book reviews, review articles, and literature reviews, the international contributors to the volume show how writers manage to critically engage with others' ideas, argue their own viewpoints, and establish academic credibility.

The Valley of Fear Illustrated Sir Arthur Conan Doyle 2021-05-26 The Valley of Fear is the fourth and very last Sherlock Holmes novel by Sir Arthur Conan Doyle. It is loosely primarily based at the Molly Maguires and Pinkerton agent James McParland. The tale was first published within the Strand Magazine among September 1914 and May 1915

A Little Princess Illustrated Frances Hodgson Burnett 2021-04-06 A Little Princess is a children's novel by Frances Hodgson Burnett, first published as a book in 1905. It is an

expanded version of the short story "Sara Crewe: or, What Happened at Miss Minchin's", which was serialized in St. Nicholas Magazine from December 1887, and published in book form in 1888. According to Burnett, after she composed the 1902 play A Little Un-fairy Princess based on that story, her publisher asked that she expand the story as a novel with "the things and people that had been left out before".[4] The novel was published by Charles Scribner's Sons (also publisher of St. Nicholas) with illustrations by Ethel Franklin Betts and the full title A Little Princess: Being the Whole Story of Sara Crewe Now Being Told for the First Time *Why Do Countries Break Up?* Vladimir Gligorov 1994 "In Chapter 2 the process of the discovery of liberalism during the communist rule

is discussed and the reasons for its failure given. All the classical liberal ideas were discovered in Yugoslavia in conflict with the socialist principles; they failed to play a key role in the transformation of the country because they did not arise from an idea of a Yugoslav state."--ABSTRACT. "In Chapter 3 a "straightforward explanation" of the break up of Yugoslavia is given. It is argued that the state did not break up for economic reasons (as a way to get out of socialism), but for the following two reasons: (i) independent ethnic state is the long term strategy of Serbs and Croats (the two dominant Yugoslav nations); (ii) political preferences came to dominate the economic ones in the process of transformation. Given the goals and the preferences and given

the facts of the ethnic configuration, the break up of Yugoslavia was inevitable and it inevitably had to be inconclusive."--ABSTRACT. "In Chapter 4 the contribution of the communist legacy is discussed and the record of individual and collective rights left in the ex-Yugoslav states is reviewed. It is shown that none of the newly established states has achieved a significant increase in those rights and is far from any ideal of a liberal state."--ABSTRACT. Comparative Archaeologies Ludomir R Lozny 2011-04-06 Archaeology, as with all of the social sciences, has always been characterized by competing theoretical propositions based on diverse bodies of locally acquired data. In order to fulfill local, regional expectations,

different goals have been assigned to the practitioners of Archaeology in different regions. These goals might be entrenched in local politics, or social expectations behind cultural heritage research. This comprehensive book explores regional archaeologies from a sociological perspective—to identify and explain regional differences in archaeological practice, as well as their existing similarities. This work covers not only the currently-dominant Anglo-American archaeological paradigm, but also Latin America, Western and Eastern Europe, Asia, and Africa, all of which have developed their own unique archaeological traditions. The contributions in this work cover these "alternative archaeologies," in the context of their own geographical, political, and socio-

economic settings, as well as the context of the currently accepted mainstream approaches.

The Linguistics of Political Argument Alan Partington 2003-08-29 This book examines the relationship between the White House, in the person of its press secretary, and the press corps through a linguistic analysis of the language used by both sides. A corpus was compiled of around fifty press briefings from the late Clinton years. A wide range of topics are

discussed from the Kosovo crisis to the Clinton-Lewinsky affair. This work is highly original in demonstrating how concordance technology and the detailed linguistic evidence available in corpora can be used to study discourse features of text and the communicative strategies of speakers. It will be of vital interest to all linguists interested in corpus-based linguistics and pragmatics, as well as sociolinguists and students and scholars of communications, politics and the media.

Cultures of Crisis in Southeast

Europe Klaus Roth 2016 Southeast Europe's history of the last two centuries is marked by deep transformations and upheavals: the emergence and disappearance of states; ethnic conflicts and wars; changes of political systems; economic crises; migration movements; and natural disasters. Most of these upheavals have been experienced as deep crises forcing people to adapt to often radically new situations. This can cause crisis management to become a permanent way of life. The book focuses on the cultures of crisis. It analyzes the reactions of societies or individuals to them, their impact on everyday life, on peoples' strategies of coping, on the processes of adaptation, and on

peoples' attitudes. Focus is placed on crises relating to migration and post-socialist transformation, to politics and religion, and to labour relations. (Series: Ethnologia Balkanica, Vol. 18) [Subject: Sociology, Southeast European Studies, Politics] *The Prague Spring 1968* Jaromir Navr til 1998-01-01 "In addition to revealing the events surrounding the invasion of Czechoslovakia in 1968, this is the first book to document a Cold War crisis from both sides of the Iron Curtain. It is based on unprecedented access to the previously closed archives of each member of the Warsaw Pact, as well as once highly classified American documents from the National Security Council, CIA, and other intelligence agencies." "Presented in a highly

readable volume, the book offers top-level documents from Kremlin Politburo meetings, multilateral sessions of the Warsaw Pact leading up to the decision to invade, transcripts of KGB-recorded telephone conversations between Leonid Brezhnev and Alexander Dubcek." "To provide a historical and political context, the editors have prepared essays to introduce each section of the volume. A chronology, glossary and bibliography offer further background information for the reader." "The editors have a unique perspective to offer to foreign audiences since they are members of the commission appointed by Vaclav Havel to investigate the events of 1967-1970."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Academic Discourse Ken Hyland 2009-01-01 Academic discourse is a rapidly growing area of study, attracting researchers and students from a diverse range of fields. This is partly due to the growing awareness that knowledge is socially constructed through language and partly because of the emerging dominance of English as the language of scholarship worldwide. Large numbers of students and researchers

must now gain fluency in the conventions of English language academic discourses to understand their disciplines, establish their careers and to successfully navigate their learning. This accessible and readable book shows the nature and importance of academic discourses in the modern world, offering a clear description of the conventions of spoken and written academic discourse and the ways these construct both knowledge and disciplinary communities. This unique genre-based introduction to academic discourse will be essential reading for undergraduate and postgraduate students studying TESOL, applied linguistics, and English for Academic Purposes.

Towards a Better Protection of Workplace Whistleblowers in the Visegrad Countries, France and Slovenia Dagmara Skupieñ

This monograph is an outcome of research completed within the Visegrad Grant “Workplace Whistleblower Protection in the V4 Countries, France and Slovenia” – WhistlePro (2020–2021), financed from the International Visegrad Fund. attitudes towards whistleblowing. Contributions prepared by legal experts from various countries and universities concern matters of universal importance such as freedom of expression relative to whistleblowing, personal scope of the EU Whistleblower Protection Directive (2019/1937) or personal data protection. They also discuss the legal situation concerning whistleblower protection in the Visegrad countries, France and Slovenia and present recommendations for changes in the respective countries. The monograph culminates with a summary of proposals for the improvement of the legal situation of persons disclosing breaches of law in the work-related context. Given its topicality and in-depth analysis of legal problems related to adequate

whistleblower protection, the book may be of interest to academics, practitioners, social partners, non-governmental organisations (NGOs) and policy makers in the process of the EU Whistleblower Protection Directive transposition in Member States.

Metadiscourse in L1 and L2 English

Annelie Ädel 2006-01-01 The pervasive phenomenon of metadiscourse □ commentary on the ongoing discourse □ is beginning to take its rightful place among the major topics of discourse studies. This book makes simultaneous contributions to the theory of metadiscourse, corpus-based methods of studying such phenomena, and our knowledge of metadiscourse use in written English. After comprehensively reviewing previous research, it introduces a more

rigorous and empirical approach to metadiscourse studies. Ädel presents a new model of metadiscourse based on Jakobson's functions of language, and other conceptual tools, including explicit features for defining metadiscourse, a taxonomy of the functions it serves, and maps of the boundaries between it and related phenomena. A large-scale study of writing by L1 and L2 university students is presented, in which the L2 speakers' overuse of metadiscourse strongly marks them as lacking in communicative competence. This work is of interest both to linguists and to educators concerned with writing in English.

A World History of Nineteenth-Century Archaeology Margarita Díaz-Andreu García 2007-11-22 Margarita Diaz-Andreu offers an innovative history

of archaeology during the nineteenth century, encompassing all its fields from the origins of humanity to the medieval period, and all areas of the world. The development of archaeology is placed within the framework of contemporary political events, with a particular focus upon the ideologies of nationalism and imperialism. Diaz-Andreu examines a wide range of issues, including the creation of institutions, the conversion of the study of antiquities into a profession, public memory, changes in archaeological thought and practice, and the effect on archaeology of racism, religion, the belief in progress, hegemony, and resistance. Rimski Ratovi U Iliriku Danijel Džino 2013 Translating Cultures David Katan 2014-06-03 As the 21st century gets

into stride so does the call for a discipline combining culture and translation. This second edition of *Translating Cultures* retains its original aim of putting some rigour and coherence into these fashionable words and lays the foundation for such a discipline. This edition has not only been thoroughly revised, but it has also been expanded. In particular, a new chapter has been added which focuses specifically on training translators for translational and intercultural competencies. The core of the book provides a model for teaching culture to translators, interpreters and other mediators. It introduces the reader to current understanding about culture and aims to raise awareness of the fundamental role of culture in constructing, perceiving and

translating reality. Culture is perceived throughout as a system for orienting experience, and a basic presupposition is that the organization of experience is not 'reality', but rather a simplified model and a 'distortion' which varies from culture to culture. Each culture acts as a frame within which external signs or 'reality' are interpreted. The approach is interdisciplinary, taking ideas from contemporary translation theory, anthropology, Bateson's logical typing and metamodel theories, Bandler and Grinder's NLP meta-model theory, and Hallidayan functional grammar. Authentic texts and translations are offered to illustrate the various strategies that a cultural mediator can adopt in order to make the different cultural frames he or she

is mediating between more explicit.

Russian "Hybrid Warfare" Ofer Fridman
2018-08-01 During the last decade,
'Hybrid Warfare' has become a novel
yet controversial term in academic,
political and professional military
lexicons, intended to suggest some
sort of mix between different
military and non-military means and
methods of confrontation.
Enthusiastic discussion of the notion
has been undermined by conceptual
vagueness and political manipulation,
particularly since the onset of the

Ukrainian Crisis in early 2014, as
ideas about Hybrid Warfare engulf
Russia and the West, especially in
the media. Western defense and
political specialists analyzing
Russian responses to the crisis have
been quick to confirm that Hybrid
Warfare is the Kremlin's main
strategy in the twenty-first century.
But many respected Russian
strategists and political observers
contend that it is the West that has
been waging Hybrid War, Gibridnaya
Voyna, since the end of the Cold War.
In this highly topical book, Ofer
Fridman offers a clear delineation of
the conceptual debates about Hybrid
Warfare. What leads Russian experts
to say that the West is conducting a
Gibridnaya Voyna against Russia, and
what do they mean by it? Why do
Western observers claim that the

Kremlin engages in Hybrid Warfare?
And, beyond terminology, is this something genuinely new?

The Puppet Boy of Warsaw Eva Weaver

Kerogen Boris Alpern 1980

Confronting Corruption Jeremy Pope 2000 The first version of this Source Book argued the case for a "National Integrity System", an holistic approach to transparency and accountability and embracing a range of accountability "pillars", democratic, judicial, media and civil society. The expression has since passed into common usage in development circles, and the argument for an holistic approach to anti-corruption efforts has similarly

achieved a widespread consensus. The fight against corruption is not wholly a moral one, in the sense that it is a struggle against the intrinsic "evil" of corruption. Certainly there is a moral element - and one which cuts across all major religions and societies throughout the world. But the compelling reason for the struggle is the suffering and deprivation corruption brings to whole societies, and to the world's most poor. It is concern for the latter, rather than a distaste for the corrupt and their deeds, that rightly drives the global movement against corruption.

Balkan Syntax and (Universal) Principles of Grammar Iliyana Krapova 2018-11-19 This book investigates

morpho-syntactic convergences that characterize the languages of the Balkan Sprachbund: Balkan Slavic, Greek, Romanian, Albanian, Balkan Romani. Apart from new data, the volume features contributions within different theoretical frameworks (contact linguistics, functional linguistics, typology, areal linguistics, and generative grammar). International Society and the De Facto State Scott Pegg 2019-12-20 Originally published in 1998, International Society and the De Facto State explores the phenomenon of de facto statehood in contemporary international relations. The de facto

state is almost the inverse of what Robert Jackson has termed the 'quasi-state'. The quasi-state has an ambassador, a flag, and a seat at the United Nations, but it does not function positively as a viable governing entity. Its limitations though, do not detract from sovereign legitimacy. The de facto state, on the other hand, lacks legitimacy yet effectively controls a given territorial area and provides governmental services to a specific population. The book engages in a birth, life, and death or evolution examination of the de facto state. **Katalog** 1984
