Millennium Dome,

cultural icons reproduce

national identity? How
does national identity

vary across time and

contested, and what has
been the impact of
globalization upon
national identity and
culture? This book
examines how national
identity is represented,
performed, spatialized
and materialized through
popular culture and in
everyday life. National
identity is revealed to
be inherent in the

things we often take for granted - from landscapes and eating habits, to tourism, cinema and music. Our specific experience of car ownership and motoring can enhance a sense of belonging, whilst Hollywood blockbusters and national exhibitions provide contexts for the ongoing, and often contested, process of national identity formation. These and a wealth of other cultural forms and practices are explored, with examples drawn from Scotland, the UK as a whole, India and Mauritius. This book addresses the considerable neglect of popular cultures in recent studies of nationalism and contributes to debates on the relationship between 'high' and 'low' culture.

new Russian state claiming to base itself on democratic, market principles. It has seen a political system shattered by a president turning tanks against the parliament, and then that president configuring the new political structure to give himself overwhelming power. These upheavals took place against a backdrop of social dislocations as the Russian people were ravaged by the effects of economic shock therapy. This book explains how these momentous changes came about, and in particular why political elites were able to fashion the new political system largely independent of the wishes of the populace at large. It was this relationship between powerful elites and weak civil society forces which has led to Russian democracy under

Yeltsin being still born.

Veiled Empire Douglas T. Northrop 2016-06-08

Drawing on extensive research in the archives of Russia and Uzbekistan, Douglas Northrop here reconstructs the turbulent history of a Soviet campaign that sought to end the seclusion of Muslim women. In Uzbekistan it focused above all on a massive effort to eliminate the heavy horsehair-and-cotton veils worn by many women and girls. This campaign against the veil was, in Northrop's view, emblematic of the larger Soviet attempt to bring the proletarian revolution to Muslim Central Asia, a region Bolsheviks saw as primitive and backward. The Soviets focused on women and the family in an effort to forge a new, "liberated" social

order. This unveiling campaign, however, took place in the context of a half-century of Russian colonization and the long-standing suspicion of rural Muslim peasants toward an urban, colonial state. Widespread resistance to the idea of unveiling quickly appeared and developed into a broader anti-Soviet animosity among Uzbeks of both sexes. Over the next quarter-century a bitter and often violent confrontation ensued, with battles being waged over indigenous practices of veiling and seclusion. New local and national identities coalesced around these very practices that had been placed under attack. Veils became powerful anticolonial symbols for the Uzbek nation as well as important markers of Muslim propriety.

Bolshevik leaders, who had seen this campaign as an excellent way to enlist allies while proving their own European credentials as enlightened reformers, thus inadvertently strengthened the seclusion of Uzbek women—precisely the reverse of what they set out to do. Northrop's fascinating and evocative book shows both the fluidity of Central Asian cultural practices and the real limits that existed on Stalinist authority, even during the ostensibly totalitarian 1930s.

aspect of revolution through the mobilization of women. Gregory J. Massell's study of the interaction between central power and local traditions concentrates on the development of female roles in revolutionary modernization. Women in Moslem societies were segregated, exploited, and degraded; they were, therefore, a structural weak point in the traditional order—a surrogate proletariat. Through this potentially subversive group, it was believed, intense conflicts could be generated within society which would lead to its disintegration and subsequent reconstitution. The first part of the book isolates the trends that made Central Asia vulnerable to outside intervention, and examines the factors that impelled the

communist elites to turn to Moslem women as potential revolutionary allies. In the second part, Professor Massell analyzes Soviet perceptions of female inferiority and of the revolutionary potential of Moslem women. Part Three is an account of specific Soviet actions based on these assumptions. The fourth part of the book deals with the variety of responses these actions evoked. Originally published in 1974. Cultural Exchange and the Cold War Yale Richmond 2010-11-01
Some fifty thousand Soviets visited the United States under various exchange programs between 1958 and 1988. They came as scholars and students, scientists and engineers, writers and journalists, government and party officials, musicians, dancers, and athletes—and among them were more than a few KGB officers. They came, they saw, they were conquered, and the Soviet Union would never again be the same. Cultural Exchange and the Cold War describes how these exchange programs (which brought an even larger number of Americans to the Soviet Union) raised the Iron Curtain and fostered

changes that prepared the way for Gorbachev's glasnost, perestroika, and the end of the Cold War. This study is based upon interviews with Russian and American participants as well as the personal experiences of the author and others who were involved in or administered such exchanges. Cultural Exchange and the Cold War demonstrates that the best policy to pursue with countries we disagree with is not isolation but engagement.

"Travel is no longer a past-time but a colossal industry, arguably one of the biggest in the world and second only to oil in importance for many poor countries. One out of 12 people in the world are employed by the tourism industry which contributes \$6.5 trillion to the world's

economy. To investigate the size and effect of this new industry, Elizabeth Becker traveled the globe. She speaks to the Minister of Tourism of Zambia who thinks licensing foreigners to kill wild animals is a good way to make money and then to a Zambian travel guide who takes her to see the rare endangered sable antelope. She travels to Venice where community groups are fighting to stop the tourism industry from pushing them out of their homes, to France where officials have made tourism their number one industry to save their cultural heritage; and on cruises speaking to waiters who earn \$60 a month--then on to Miami to interview their CEO. Becker's sharp depiction reveals travel as a product; nations as stewards. Seeing the tourism industry from

Rewriting History in Soviet Russia R.

Markwick 2001-02-01 This book explores the political significance of the development of historical revisionism in the USSR under Khrushchev in the wake of the Twentieth Congress of the CPSU and its demise with the onset of the 'period of stagnation' under Brezhnev. On the basis of intensive interviews and original manuscript material, the book demonstrates that the vigorous rejuvenation of historiography undertaken by Soviet historians in the 1960s conceptually cleared the way for and fomented the dramatic upheaval in Soviet historical writing occasioned by the advent of

perestroika.

Historical Dictionary of Russian and Soviet

Cinema Peter Rollberg
2016-07-20 Russian and Soviet cinema occupies a unique place in the history of world cinema. Legendary filmmakers such as Sergei Eisenstein, Vsevolod Pudovkin, Dziga Vertov, Andrei Tarkovsky, and Sergei Paradjanov have created oeuvres that are being screened and studied all over the world. The Soviet film industry was different from others because its main criterion of success was not profit, but the ideological and aesthetic effect on the viewer. Another important feature is Soviet cinema's multinational (Eurasian) character: while Russian cinema was the largest, other national cinemas such as Georgian, Kazakh, and Ukrainian played a decisive role

The Historical Dictionary of Russian and Soviet Cinema provides a rich tapestry of factual information, together with detailed critical assessments of individual artistic accomplishments. This second edition of Historical Dictionary of Russian and Soviet Cinema contains a chronology, an introduction, and a bibliography. The dictionary section has over 600 cross-referenced entries on directors, performers, cinematographers, composers, designers, producers, and studios. This book is an excellent access point for students, researchers, and anyone wanting to know more about Russian and Soviet Cinema.

Russia and the Idea of the West Robert English 2000 An intriguing "intellectual portrait" of a generation of Soviet reformers, this book is also a fascinating case study of how ideas can change the course of history. In most analyses of the Cold War's end the ideological aspects of Gorbachev's "new thinking" are treated largely as incidental to the broader considerations of power -- as gloss on what was essentially a retreat forced by crisis and decline. Robert English makes a major contribution by demonstrating that Gorbachev's foreign policy was in fact the result of an intellectual revolution. English analyzes the rise of a liberal policy-academic elite and its impact on the

Cold War's end. English worked in the archives of the USSR Foreign Ministry and also gained access to the restricted collections of leading foreign-policy institutes. He also conducted nearly 400 interviews with Soviet intellectuals and policy makers -- from Khrushchev- and Brezhnev-era Politburo members to Perestroika-era notables such as Eduard Shevardnadze and Gorbachev himself. English traces the rise of a "Westernizing" worldview from the post-Stalin years, through a group of liberals in the late 1960s--70s, to a circle of close advisers who spurred Gorbachev's most radical reforms.

Questions of Identity

Robert B. Pynsent 1994

Questions of Identity treats four varieties of conceptions of individual and social identity. This interdisciplinary book describes and analyzes four trends of thought that have prevailed at

one time in most of Europe over the last two centuries: the idea of the responsible citizen, the concept of patriotism or nationalism, the loss of self, and suffering as a formative element in the national character. In a section devoted to Václav Havel, Pynsent treats Havel's notion of personal identity as expressed in personal responsibility. Another section concerning national identity looks in particular at two early nineteenth-century Slovaks who rejected Slovak nationalism and whose ideas ultimately had a profound impact on East European thinking on nationality up to the fall of communism. A third section deals with the beginnings of Modernism and the apparent disintegration of the self in West European and Czech writers. The final

The book brings into sharp relief the social and economic consequences arising from the highly centralized character of Communist Party rule. Because conditions regarded as essential for effective scientific research conflict with the form of political control prevailing in the Soviet Union, the Soviet scientists' working environment provides a fruitful context for assessing the methods adopted by the Communist Party.

which to explore some important sources of change in contemporary Soviet politics. The book is also a survey of the present state of natural science in the U.S.S.R. Topics of concern range from the scientists' background and social characteristics, institutions, status, and leadership to their social relations and effectiveness. The relationship of the Communist Party to the scientists is examined in detail.

Soviet History in the Yeltsin Era R. W. Davies
1997-06-12 Russian rethinking of the past has immense political significance. The author of the acclaimed *Soviet History in the Gorbachev Revolution* now examines the impact of the collapse of Communism and of the subsequent disillusionment with capitalism on Soviet history. The uses of history after the 1991 coup and in the 1995 and 1996 elections are considered in detail. Part two evaluates the unfinished revolution which has partly opened the archives, while part three offers reflections on the future of the Soviet past.

Zhivago's Children

Vladislav Zubok
2009-05-30 Among the least-chronicled aspects of post-World War II European intellectual and cultural history is the story of the Russian intelligentsia after Stalin. Vladislav Zubok turns a compelling subject into a portrait as intimate as it is provocative. Zhivago's children, the spiritual heirs of Boris Pasternak's noble doctor, were the last of their kind - an intellectual and artistic community committed to a civic,

cultural, and moral mission.

Russian Nationalism

Marlene Laruelle

2018-10-10 This book, by one of the foremost authorities on the subject, explores the complex nature of Russian nationalism. It examines nationalism as a multilayered and multifaceted repertoire displayed by a myriad of actors. It considers nationalism as various concepts and ideas emphasizing Russia's distinctive national character, based on the country's geography, history, Orthodoxy, and Soviet technological advances. It analyzes the ideologies of Russia's ultra-nationalist and far-right groups, explores the use of nationalism in the conflict with Ukraine and the annexation of Crimea, and discusses how Putin's political

opponents, including Alexei Navalny, make use of nationalism. Overall the book provides a rich analysis of a key force which is profoundly affecting political and societal developments both inside Russia and beyond.

2009-02-01 In this widely praised book, Vladislav Zubok argues that Western interpretations of the Cold War have erred by exaggerating either the Kremlin's pragmatism or its aggressiveness. Explaining the interests, aspirations, illusions, fears, and misperceptions of the Kremlin leaders and Soviet elites, Zubok offers a Soviet perspective on the greatest standoff of the twentieth century. Using recently declassified Politburo records,

ciphered telegrams, diaries, and taped conversations, among other sources, Zubok offers the first work in English to cover the entire Cold War from the Soviet side. *A Failed Empire* provides a history quite different from those written by the Western victors. In a new preface for this edition, the author adds to our understanding of today's events in Russia, including who the new players are and how their policies will affect the state of the world in the twenty-first century.
