Socialist Spaces David Crowley 2002-11 This work explores the representation, meanings and uses of space in the socialist countries of Eastern Europe and the Soviet Union. The essays investigate the extent to which actual spaces conformed to the dominant political order in the region.

Voices in Wartime Rachel Bentham 2017-08-26 The Voices in Wartime Anthology explores the experience of war through the literary arts from ancient times to the present. The anthology includes the voices of US veterans of the Iraq war; experts on war trauma and the history of war; and poets from around the world. It includes poetry, essays, and narratives based on

interviews conducted for the feature-length documentary film *Voices in Wartime*. The book features active-duty soldiers, veterans, torture victims, war correspondents, the families of the disappeared and the dead, poets, peace activists--the compelling responses of unique, individual human beings to the experience of war. Their poetry springs from unrelenting honesty, personal grief and deep compassion, and is infused with an understanding of hardship and suffering. *The Voices in Wartime Anthology* explores the experience of war through the literary arts from ancient times to the present. The anthology features the voices of US veterans of the Iraq war; experts on war trauma and the history of war; and poets from around the world. It includes: Jose Diaz, US Army Reserve military policeman and father of two. He returned to the US in the fall of 2004 after serving a year's deployment in Iraq as a military police sergeant in the Army Reserves. Brian Turner, who earned an MFA in Creative Writing (poetry) from the

University of Oregon, and then served in the US Army for seven years. He was an infantry team leader in Iraq for a year beginning November 2003, and served with the Stryker Brigade Combat Team, 2nd Infantry Division. Lt. General William Lennox, superintendent of the United States Military Academy at West Point. He wrote his Ph.D. dissertation on American war poetry. Paul Mysliwicz, US Army First Lieutenant who led his unit through the invasion of Baghdad in spring 2003 and then spent months searching for Iraqi weapons of mass destruction. Jonathan Shay, psychiatrist for the United States Department of Veterans Affairs in Boston. Shay treats combat veterans with severe psychological injuries and is the author of the best-selling books "Achilles in Vietnam: Combat Trauma and the Undoing of Character," and "Odysseus in America: Combat Trauma and the Trials of Homecoming." Emily Warn, a poet, teacher, and activist--and the author of "The Novice Insomniac" and three other collections of

poetry. Chris Hedges, a former "New York Times" war correspondent with 15 years of experience in places such as El Salvador, Kosovo, and the Persian Gulf. He shared a 2002 Pulitzer Prize for coverage of global terrorism. Andrew Himes, Executive Producer of Voices in Wartime and director of Beyond Wartime. David Connolly, poet and veteran who served honorably in Vietnam with the 11th Armored Cavalry Regiment. Wilfred Owen, British soldier-poet during the First World War. Died in combat a week before the Armistice in 1918. Alix Wilber, novelist and Co-Executive Producer of Voices in Wartime. Jonathan Schell, author of Unconquerable World, and Fate of the Earth. Craig White, NBC cameraman, embedded with the 3rd Infantry Division, one of the first US Army units to enter Baghdad in April 2003. Sinan Antoon, Iraqi poet, filmmaker, and human rights activist. Chris Abani, Nigerian human rights activist and refugee. Nguyen Duy, widely considered the most important Vietnamese poet

of his generation. Antonieta Villamil, Columbian poet, peace and human rights activist. Sheila Sebron, disabled, African-American Air Force veteran living with chronic PTSD and severe pain. John Henry Parker, veteran and founder of Veterans and Families. "If history and literature have taught us anything," said anthology editor and film producer Andrew Himes, "it is that in the midst of trauma, violence and death, it is the poets who help us make sense of the senseless. In a world turned upside down, listening attentively to the stories of others can open our hearts, our minds, and point the way to change." The Public Life of Sissy Pike Thomas Nelson Publishers 2005-07-05 Girls... meet Sissy Pike. She looks like you, talks like you, and yes, has to deal with life just like you. The only difference is, all her drama, heartbreak, and embarrassment is right here, available for your viewing pleasure. In Episode One, New Girl in Town, Sissy's life has become a whirlwind of change. Formerly a Navy Chaplain, Sissy's father becomes Pastor of a

church in the Midwest. And the move from sunny, funky California to the heartland of the Midwest brings on a new kind of culture shock for Sissy as well as the residents of the picturesque town. When the school "princess" takes issue with Sissy's style of dress, Sissy must come to grips with small town and small church politics. In the end, she learns that moderation and kindness can make the worst situations tolerable.

How St. Petersburg Learned to Study Itself
Emily D. Johnson 2006 "Johnson traces the history of kraevedenie, showing how St. Petersburg-based scholars and institutions have played a central role in the evolution of the discipline. Distinguished from obvious Western equivalents such as cultural geography and the German Heimatkunde by both its dramatic history and unique social significance, kraevedenie has, for close to a hundred years, served as a key forum for expressing concepts of regional and national identity within Russian

culture."--Jacket.

The Nose of a Notary Edmond About 1863

The Ski Mask Way 50 Cent 2007-01-09 Hoping to start his life over after his prison release, ladies' man Seven finds himself tempted by the fast money of the drug trade when his day job fails to provide his desired lifestyle, a circumstance for which he teams up with a fellow ex-con for a high-stakes operation. Original. 60,000 first printing.

The Man with the Broken Ear Edmond About 2007-01-01 The good news you sent us from St. Petersburg caused us the greatest joy. Your poor mother had been ailing since winter, but I had not spoken to you about it from fear of making you uneasy while so far from home. As for myself, I had not been very well; and there was yet a third person (guess the name if you can!) who was languishing from not seeing you. But content yourself, my dear Leon: we have been recuperating more and more since the time of your return is almost fixed. We begin to believe

that the mines of the Ural will not swallow up that which is dearer to us than all the world.

Empire D. C. B. Lieven 2002-01-01 Focusing on the Tsarist and Soviet empires of Russia, Lieven reveals the nature and meaning of all empires throughout history. He examines factors that mold the shape of the empires, including geography and culture, and compares the Russian empires with other imperial states, from ancient China and Rome to the present-day United States. Illustrations.

The Russian Empire and the World,

1700-1917 John P. LeDonne 1997 Both an historical survey of Russia's expansion during the Imperial Period (1700--1917) and a geopolitical interpretation of its motive and goals, this text also analyzes the policies to contain that expansion on a global scale. The Russian Empire and The World postulates the

existence of a permanent geopolitical framework called the Heartland within which a Russian core area fought for hegemony. The text brings together various strands of Russian foreign policy before 1917, showing the consistency and importance of the policy's purpose and methods. It draws valuable lessons to help readers understand Soviet foreign policy and the renewed pressures Russia faces to restore its position within the Heartland, making this an ideal text for courses in Russian History, International Relations, and Political Science. Ranging from the beginning of the eighteenth century to the end of World War I, *The Russian Empire and The World* offers the most successful explanation as to how, despite reversals and limitations, Russia succeeded in becoming the world's largest contiguous land empire in European history.

An Archaeology of Socialism Victor Buchli 2021-01-07 This highly original case study, which adopts a material culture perspective, is

unprecedented in social and cultural histories of the Soviet period and provides a unique window on social relations. The author demonstrates how Moisei Ginzburg's Constructivist masterpiece, the Narkomfin Communal House, employed classic Marxist understandings of material culture in an effort to overturn capitalist and patriarchal social structures. Through the edifying effects of architectural forms, Ginzburg attempted to induce socialist and feminist-inspired social and gender relations. The author shows how, for the inhabitants, these principles manifested themselves, from taste to hygiene to gender roles, and how individuals variously appropriated architectural space and material culture to cope with the conditions of daily life, from the utopianism of the First Five Year Plan and Stalin's purges to the collapse of the Soviet Union. This book makes a major contribution to: the history of socialism in the Soviet Union and, more generally, Eastern Europe; material

culture studies; architectural history; archaeology and social anthropology.

The Landscape of Stalinism Evgeny Dobrenko 2011-11-15 This wide-ranging cultural history explores the expression of Bolshevik Party ideology through the lens of landscape, or, more broadly, space. Portrayed in visual images and words, the landscape played a vital role in expressing and promoting ideology in the former Soviet Union during the Stalin years, especially in the 1930s. At the time, the iconoclasm of the immediate postrevolutionary years had given way to nation building and a conscious attempt to create a new Soviet culture. In painting, architecture, literature, cinema, and song, images of landscape were enlisted to help mold the masses into joyful, hardworking citizens of a state with a radiant, utopian future -- all under the fatherly guidance of Joseph Stalin. From

backgrounds in history, art history, literary studies, and philosophy, the contributors show how Soviet space was sanctified, coded, and sold as an ideological product. They explore the ways in which producers of various art forms used space to express what Katerina Clark calls a cartography of power -- an organization of the entire country into a hierarchy of spheres of relative sacredness, with Moscow at the center. The theme of center versus periphery figures prominently in many of the essays, and the periphery is shown often to be paradoxically central. Examining representations of space in objects as diverse as postage stamps, a hikers magazine, advertisements, and the Soviet musical, the authors show how cultural producers attempted to naturalize ideological space, to make it an unquestioned part of the worldview. Whether focusing on the new or the centuries-old, whether exploring a built cityscape, a film documentary, or the painting Stalin and Voroshilov in the Kremlin, the authors

offer a consistently fascinating journey through the landscape of the Soviet ideological imagination. Not all features of Soviet space were entirely novel, and several of the essayists assert continuities with the prerevolutionary past. One example is the importance of the mother image in mass songs of the Stalin period; another is the "boundless longing" inspired in the Russian character by the burden of living amid vast empty spaces. But whether focusing on the new or the centuries-old, whether exploring a built cityscape, a film documentary, or the painting Stalin and Voroshilov in the Kremlin, the authors offer a consistently fascinating journey through the landscape of the Soviet ideological imagination.

A Return to Europe Meldra Usenko 2006
The Soviet Arctic Pier Horensma 1991
The Soviet Arctic is the first book to consider Soviet policy in this area from an historian's point of view. Horensma assesses the importance of historic legacies to current Soviet Arctic policy

and their consequences on an international level. The book also discusses the significance of historic precedents in the determination of polar sovereignty.

Are You Afraid of the Dark? Susan Kim 1994

Refining Russia Catriona Kelly 2001-08-09

Advice literature (etiquette manuals, guides to hygiene and house management, and treatises on upbringing) enjoyed massive popularity in Russia between the late eighteenth and the late twentieth centuries. It reflected changing attitudes to appropriate behaviour in private and public, to the acquisition of possessions, and not least to national identity (for many Russians, reading how-to books was seen as a way of 'learning how to be a Westerner'). Written or translated by members of the cultural elite trying to encourage what they saw as civilized behaviour, advice literature was also a conduit for changing views of mass readers and of their place in society. This important and engaging book is the first systematic exploration of this

hitherto neglected genre of popular printed text. It examines the evolution of advice literature from the Enlightenment to the post-Soviet era, from translations of Fénelon and Madame de Lambert in the 1760s and of Samuel Smiles in the late nineteenth and early twentieth centuries, to tracts by Gogol and Tolstoi, Soviet pamphlets on 'how to be cultured', and post-Soviet guides to 'window treatments'. It draws on a huge range of sources - memoirs, 'novelised conduct books' such as Anna Karenina, parody advice literature, letters, and reviews - to examine the broader significance of how-to books, and their relationship with daily life (byt) as construct and as lived reality. The result is a book that not only makes a major contribution to the study of popular culture, but also throws an unexpected and revealing light on Russian history more broadly.

Walking the Lake District Fells - Keswick

Mark Richards 2020-11-24 This guide describes ascents of 30 Lake District fells that can be

climbed from Keswick, the Whinlatter Pass, Bassenthwaite, Hesketh Newmarket, Mungrisdale and Threlkeld. The giants of the region Skiddaw and Blencathra need little introduction, their myriad routes attracting many a visitor and promising fantastic far-reaching views. The summits to the north, however, are less frequented, offering probably the closest experience to wilderness walking the Lakes has to offer, whereas to the west, the Whinlatter group present a sylvan alternative. Unlike other guidebooks which describe a single or limited number of routes to a particular destination, the aim of the Walking the Lake District Fells series is to offer all the options. These are presented as numbered sections which can be combined to create infinite possibilities - from simple ascents to longer ridge routes. You'll find the classics and popular routes alongside less traditional alternatives perfect for the wandering spirit. The series gives you both the freedom to devise your own routes and the information to make

informed decisions, thanks to the clear descriptions of the routes, terrain, hazards, interesting features and safe descent paths should the weather close in. Also included are a handful of classic ridge routes for longer fell days. Mark Richards' inimitable text is complemented by HARVEY mapping and the author's own beautiful sketch topos and panoramas. Perfect for keen hillwalkers and peak-baggers alike and ideal both for pre-planning and use on the hill, Walking the Lake District Fells is the new incarnation of the Fellranger series, which sees the volumes updated and trimmed to a more practical size. These true connoisseurs' guides are sure to inspire you to get out and explore the beautiful fells of Lakeland. For those collecting fell summits, a 'Fellrangers' hill list register can be found on the Long Distance Walkers Association website.

Mapping an Empire Matthew H. Edney
2009-02-15 In this fascinating history of the British surveys of India, Matthew H. Edney relates how imperial Britain used modern survey

techniques to not only create and define the spatial image of its Empire, but also to legitimate its colonialist activities. "There is much to be praised in this book. It is an excellent history of how India came to be painted red in the nineteenth century. But more importantly, Mapping an Empire sets a new standard for books that examine a fundamental problem in the history of European imperialism."—D. Graham Burnett, Times Literary Supplement "Mapping an Empire is undoubtedly a major contribution to the rapidly growing literature on science and empire, and a work which deserves to stimulate a great deal of fresh thinking and informed research."—David Arnold, Journal of Imperial and Commonwealth History "This case study offers broadly applicable insights into the relationship between ideology, technology and politics. . . . Carefully read, this is a tale of irony about wishful thinking and the limits of knowledge."—Publishers Weekly

A Dangerous Assignment Ron Lovell

2016-05-01 A semester of teaching immigration law at the UCLA Law School has given Oregon attorney Lorenzo Madrid the change of scene he desperately needed. Gone were the PTSD symptoms brought on by a number of run-ins with members of a drug gang. Gone were the night sweats and an inability to concentrate. A chance encounter with a somewhat sleazy Hollywood producer provides a temporary job as his teaching stint winds down. What starts as a

simple review of actor contracts turns into much more. Before long, he is handling all aspects of production of a low budget movie to be filmed in Oregon. The location is an abandoned sanitarium on the Oregon Coast where he has to deal with a temperamental movie queen--called by her fans "The Queen of the Bs"--her drunken husband--a stuntman, strange incidents on the set--and murder. In the middle of this turmoil, one of his former gang tormentors asks for his help. He says he will talk only to Lorenzo. Should he try to get this man into the Witness Protection, despite the risks? Or, should he cast aside all doubts, because of the valuable information he is offering the government? A dilemma for Lorenzo and a truly dangerous assignment.

Imperial Visions Mark Bassin 1999-06-24 In the middle of the nineteenth century, the Russian empire made a dramatic advance on the Pacific by annexing the vast regions of the Amur and Ussuri rivers. Although this remote realm was a virtual terra incognita for the Russian educated public, the acquisition of an 'Asian Mississippi' attracted great attention nonetheless, even stirring the dreams of Russia's most outstanding visionaries. Within a decade of its acquisition, however, the dreams were gone and the Amur region largely abandoned and forgotten. In an innovative examination of Russia's perceptions of the new territories in the Far East, Mark Bassin sets the Amur enigma squarely in the context of the Zeitgeist in Russia at the time. *Imperial Visions* demonstrates the fundamental importance of geographical imagination in the mentalité of imperial Russia. This 1999 work offers a truly novel perspective on the complex and ambivalent ideological relationship between Russian nationalism,

geographical identity and imperial expansion. *The Barrio Gangs of San Antonio, 1915-2015* Mike Tapia 2017-06-22 Barrio Gangs is the most comprehensive academic case study of barrio group dynamics in a major Texas city to date. This is a sociological work on the history of barrio gangs in San Antonio and other large Texas cities to the present day. It examines the century-long evolution of urban barrio subcultures using public archives, oral histories, old photos, and other forms of qualitative data. The study gives special attention to the barrio gangs' "heyday," from the 1940s through the 1960s, comparing their attributes to those of modern groups. It illustrates how social and technological changes have affected barrio networking processes and the intensity of the street lifestyle over time. Intergenerational shifts and the tension that accompanies such changes are also central themes in the book. Few other places are so conducive to such historical exploration as is San Antonio. Street

ignobility in the barrio no doubt mirrors processes found in other Chicano communities in Texas and the Southwest. The gang contexts in major Chicano population centers have lengthy historical bases rooted in weak opportunity structures, oppression, and discrimination. This work shows that participation in street violence, drug selling, and other parts of the informal economy are functional adaptations to the social structure; the forces propelling the formation of barrio gangs are not temporary social phenomena.

Right-Wing Collectivism Jeffrey Tucker
2017-10-16 The rise of the so-called alt-right is the most unexpected ideological development of our time. Most people of the current generation lack a sense of the historical sweep of the intellectual side of the right-wing collectivist position. Jeffrey Tucker, in this collection written between 2015 and 2017, argues that this movement represents the revival of a tradition of interwar collectivist thought that might at first

seem like a hybrid but was distinctly mainstream between the two world wars. It is anti-communist but not for the reasons that were conventional during the Cold War, that is, because communism opposed freedom in the liberal tradition. Right-collectivism also opposes traditional liberalism. It opposes free trade, freedom of association, free migration, and capitalism understood as a laissez-faire free market. It rallies around nation and state as the organizing principles of the social order-and trends in the direction of favoring one-man rule-but positions itself as opposed to leftism traditionally understood. We know about certain fascist leaders from the mid-20th century, but not the ideological orientation that led to them or the ideas they left on the table to be picked up generations later. For the most part, and until recently, it seemed to have dropped from history. Meanwhile, the prospects for social democratic ideology are fading, and something else is coming to fill that vacuum. What is it?

Where does it come from? Where is it leading? This book seeks to fill the knowledge gap, to explain what this movement is about and why anyone who genuinely loves and longs for liberty classically understood needs to develop a nose and instinct for spotting the opposite when it comes in an unfamiliar form. We need to learn to recognize the language, the thinkers, the themes, the goals of a political ethos that is properly identified as fascist. "Jeffrey Tucker in his brilliant book calls right-wing populism what it actually is, namely, fascism, or, in its German form national socialism, nazism. You need Tucker's book. You need to worry. If you are a real liberal, you need to know where the new national socialism comes from, the better to call it out and shame it back into the shadows. Now." - Deirdre McCloskey

This Meager Nature Christopher Ely 2009
Boundless Russia, humble yet full of hidden grandeur—such visions of "the motherland" became crucial markers of Russian national

identity. This Meager Nature is the first full-length study to trace the cultural construction of Russia's landscape during the nineteenth century, showing how artistic and literary representations of nature reflected and shaped Russians' ideas about themselves and their nation. In the early 1800s, Russians commonly accepted the European judgment that their land lacked aesthetic value. That view changed with the outpouring of literary and artistic creativity that followed the century's political upheavals. Artists such as Aleksei Savrasov, Fedor Vasil'ev, Ivan Shishkin, and Nikolai Nekrasov turned to their native land and revealed the power of grey skies, vast open fields, and simple birch forests. Russians came to embrace their land's modest beauty, which represented strength and hidden depths. The historical creation of Russia's sense of place resulted not so much from its citizens' encounters with their environment, Ely argues, as from their long-term struggle to distinguish Russia from Europe. The humble beauty of the

Russian land served to assert the genuineness of Russia against the inauthenticity of western Europe. For those who embraced it, the "meager" beauty of the landscape provided a powerful means for experiencing and expressing Russian national identity. (2002) 289 pp., illus., biblio., index ISBN: 978-0-87580-303-6 cloth \$42.00 Christopher Ely is Assistant Professor of History at the Harriet L. Wilkes Honors College of Florida Atlantic University. He lives in West Palm Beach with his wife and two children.

Visions of a New Land Emma Widdis 2003-01-01 In 1917 the Bolsheviks proclaimed a world remade. Naked Came the Stranger Penelope Ashe 1970 *The Radical Right in Eastern Europe* Michael Minkenberg 2017-05-08 This book is a comparative analysis of the post-communist East European radical right, both in party and non-party formation, using the West European radical right as a baseline. Minkenberg offers insights into the political field of the radical right since the onset of democracy in the region and elicits region-wide and country-specific

characteristics. The book argues that due to the nature of the transition process from Soviet hegemony to national independence and from communist to democratic societies, and the unfinished process of nation-building in the region, the radical right in Eastern Europe is a phenomenon sui generis, both organizationally more fluid and ideologically more extreme than the Western counterpart. The issues covered include trends in party system and electoral

developments, patterns of movement mobilization and racist activism, and the impact of the radical right on their countries' politics and policies.

Boy on a Pony George Abagnalo 2001 A provocative story of love and sexual awakening, Boy On A Pony raises the controversial issue of privileged sexual abuse within our health care system.
