The Terror Dan Simmons 2008 Suspense fiction. The men on board Her Britannic Majesty's Ships Terror and Erebus had every expectation of triumph. They were part of Sir John Franklin's 1845 expedition - as scientifically advanced an enterprise as had ever set forth - and theirs were the first steam-driven vessels to go in search of the fabled North-West Passage. But the ships have now been trapped in the Arctic ice for nearly two years. Coal and provisions are running low. Yet the real threat isn't the constantly shifting landscape of white or the flesh-numbing temperatures, dwindling supplies or the vessels being slowly crushed by the unyielding grip of the frozen ocean. No, the real threat is far more terrifying. There is something out there that haunts the frigid darkness, which stalks the ships, snatching one man at a time - mutilating, devouring. A nameless thing, at once nowhere and everywhere, this terror has become the expedition- 's nemesis. When Franklin meets a terrible death, it falls to Captain Francis Crozier of HMS Terror to take command and lead the remaining crew on a last, desperate attempt to flee south across the ice. With them travels an Eskimo woman who cannot speak. She may be the key to survival - or the harbinger of their deaths. And as scurvy, starvation and madness take their toll, as the Terror on the ice become evermore bold, Crozier and his men begin to fear there is no escape.

Furniture-Makers and Consumers in England, 1754–1851 Akiko Shimbo 2016-04-15 Covering the period from

the publication of Thomas Chippendale's *The Gentleman and Cabinet-Makers' Director* (1754) to the Great Exhibition (1851), this book analyses the relationships between producer retailers and consumers of furniture and interior design, and explores what effect dialogues surrounding these transactions had on the standardisation of furniture production during this period. This was an era, before mass production, when domestic furniture was made both to order and from standard patterns and negotiations between producers and consumers formed a crucial part of the design and production process. This study narrows in on three main areas of this process: the role of pattern books and their readers; the construction of taste and style through negotiation; and daily interactions through showrooms and other services, to reveal the complexities of English material culture in a period of industrialisation.

The Crisis of Russian Democracy Richard Sakwa 2010-12-16 The view that Russia has taken a decisive shift towards authoritarianism may be premature, but there is no doubt that its democracy is in crisis. In this original and dynamic analysis of the fundamental processes shaping contemporary Russian politics, Richard Sakwa applies a new model based on the concept of Russia as a dual state. Russia's constitutional state is challenged by an administrative regime that subverts the rule of law and genuine electoral competitiveness. This has created a situation of permanent stalemate: the country is unable to move towards genuine pluralist democracy but, equally, its shift towards full-scale authoritarianism is inhibited. Sakwa argues that the dual state could be transcended either by strengthening the democratic state or by the consolidation of the arbitrary power of the administrative system. The future of the country remains open.

understand as liabilities can be leveraged into strengths. Bound to wheelchairs and dependent on prosthetic limbs, the physically disabled students living in the House are overlooked by the Outsides. Not that it matters to anyone living in the House, a hulking old structure that its residents know is alive. From the corridors and crawl spaces to the classrooms and dorms, the House is full of tribes, tinctures, scared teachers, and laws—all seen and understood through a prismatic array of teenagers' eyes. But student deaths and mounting pressure from the Outsides put the time-defying order of the House in danger. As the tribe leaders struggle to maintain power, they defer to the awesome power of the House, attempting to make it through days and nights that pass in ways that clocks and watches cannot record.
