Glossy Nina-Sophia Miralles  
2021-03-18 'Dame Anna Wintour might be one of the best-known and most successful journalists on the planet. But it wasn't always like that. When she started out on Vogue she was often so miserable she had to phone her husband for help. This is just one of countless fascinating titbits in this zippy story of dizzying

fortune, out-of-this-world fashion, ingenuity, passion, sex and power. And, this being fashion, some intense bitchiness too. Started as a gossip magazine for snobbish New Yorkers in 1892, Vogue is now one of the most recognisable brands in the world. Spanning London, New York and Paris, this is a high-speed, fun read full of fascinating though not always likeable people.' Daily Mail Glossy is a story of more than a magazine. It is a story of passion and power, dizzying fortune and out-of-this-world fashion, of ingenuity and opportunism, frivolity and malice. This is the definitive story of Vogue. Vogue magazine started, like so many great things do, in the spare room of someone's house. But unlike other such makeshift projects that flare up then fizzle away, Vogue

burnt itself onto our cultural consciousness. Today, 128 years later, Vogue spans 22 countries, has an international print readership upwards of 12 million and nets over 67 million monthly online users. Uncontested market leader for a century, it is one of the most recognisable brands in the world and a multi-million dollar money-making machine. It is not just a fashion magazine, it is the establishment. But what - and more importantly who - made Vogue such an enduring success? Glossy will answer this question and more by tracing the previously untold history of the magazine, from its inception as a New York gossip rag, to the sleek, corporate behemoth we know now. This will be a biography of Vogue in every sense of the word, taking the reader through three

centuries, two world wars, plunging failures and blinding successes, as it charts the story of the magazine and those who ran it.

**The Vitamin Cure for Alcoholism** Abram Hoffer 2009-04-24 This book can be a godsend for many persons--for those who suffer from alcohol addiction, for their friends and loved ones, and for those in the relevant helping professions. Its central message is that alcoholism is primarily a metabolic disease that should be treated with due consideration of its physiological roots. The old moralistic approach and the more recent behavioral and psychological treatment approaches have a dismal record of failure, largely because they pay little or no attention to the crucial physiological and nutritional needs of alcoholics.

**Il Tempio. La Nascita Dell'Eidos** Cora BIGNOTTI 2022-06-13 - Discovered in the archives of the artists, previously unpublished material related to a collaborative project that was never completed Between 1970 and 1971, Italian artists Paolo Scheggi and Vincenzo Agnetti worked together on a project they called The Temple. Birth of Eidos. Due to Scheggi's untimely death in 1971 at the age of 31, the project remained unfinished. These previously unpublished preparatory sketches, drawings, and notes, which were shown at the Museo Novecento in Florence, are examined in essays by Ilaria Bignotti and Bruno Corà and texts by Germana Agnetti and Cosima Scheggi, daughters of the two artists and

directors of their respective archives. The concept of the project was to create a sacred place, a temple, to contain linguistic objects representing primary forms of community, subjectivity and power, linking these with the artistic and theoretical research the two artists were conducting at the time. Agnetti died 10 years after his friend and colleague. His research followed a new route but remained closely linked with that idea born in 1968, that "any work, any artistic object, any gesture is a critical reminder of reality and our existence". (Germana Agnetti).

**Resident Foreigners** Donatella Di Cesare 2020-04-13 From the shores of Europe to the Mexican-US border, mass migration is one of the most pressing issues we face today. Yet at the same time, calls to defend national sovereignty are becoming ever more vitriolic, with those fleeing war, persecution, and famine vilified as a threat to our security as well as our social and economic order. In this book, written amidst the dark resurgence of appeals to defend 'blood and soil', Donatella Di Cesare challenges the idea of the exclusionary state, arguing that

migration is a fundamental human right. She develops an original philosophy of migration that places the migrants themselves, rather than states and their borders, at the centre. Through an analysis of three historic cities, Athens, Rome and Jerusalem, Di Cesare shows how we should conceive of migrants not as an other but rather as resident foreigners. This means recognising that citizenship cannot be based on any supposed connection to the land or an exclusive claim to ownership that would deny the rights of those who arrive as migrants. Instead, citizenship must be disconnected from the possession of territory altogether and founded on the principle of cohabitation – and on the ultimate reality that we are all temporary guests and tenants of the

earth. Di Cesare's argument for a new ethics of hospitality will be of great interest to all those concerned with the challenges posed by migration and with the increasingly hostile attitudes towards migrants, as well as students and scholars of philosophy and political theory.

**Poor but Sexy** Agata Pyzik 2014-03-28  
24 years after the fall of the Berlin Wall, Europe is as divided as ever. The passengers of the low-budget airlines go east for stag parties, and they go West for work; but the East stays East, and West stays West. Caricatures abound - the Polish plumber in the tabloids, the New Cold War in the broadsheets and the endless search for 'the new Berlin' for hipsters. Against the stereotypes, Agata Pyzik peers behind the curtain to take a look at the

secret histories of Eastern Europe (and its tortured relations with the 'West'). Neoliberalism and mass migration, post-punk and the Bowiephile obsession with the Eastern Bloc, Orientalism and 'self-colonization', the emancipatory potentials of Socialist Realism, the possibility of a non-Western idea of modernity and futurism, and the place of Eastern Europe in any current revival of 'the idea of communism' – all are much more complex and surprising than they appear. Poor But Sexy refuses both a dewy-eyed Ostalgia for the 'good old days' and the equally desperate desire to become a 'normal part of Europe', reclaiming instead the idea an Other Europe.

**Translation and Conflict** Mona Baker  
2018-10-25 Translation and Conflict  
was the first book to demonstrate  
that translators and interpreters  
participate in circulating as well as  
resisting the narratives that create  
the intellectual and moral  
environment for violent conflict and  
social tensions. Drawing on narrative  
theory and with numerous examples  
from historical and current contexts  
of conflict, Mona Baker provides an  
original and coherent model of  
analysis that pays equal attention to  
the circulation of narratives in  
translation and to questions of

dominance and resistance. With a new  
preface by Sue-Ann Harding,  
Translation and Conflict is more than  
ever the essential text for any  
student or researcher interested in  
the study of translation and social  
movements.

*China and the New International Order* Wang Gungwu 2008-01-30 This book explores China's place in the 'new international order', from both the international perspective and from the perspective within China. It discusses how far the new international order, as outlined by George Bush in 1991 after the collapse of the Soviet Union and the

liberation of Kuwait in the Gulf War, with its notions of 'international order', as viewed by the United States, and with the United States seeing itself as the single dominant power, applies to China. The contributors offer the implications, both positive and negative, of China's growing economic power, and the possibility that China will increase its military power. They also examine the idea that the Chinese leadership is being carried along itself by events in China, which it does not fully control, and that other growing forces within China, such as nationalism, increasing social grievances, structural instability, and rivalry between the centre and the regions potentially work against China's growing strength in the international

arena. Considering traditional Chinese notions of 'international' power, where the world is seen as sino-centric, with neighbouring countries subservient to China in varying degrees, the book argues that this represents a fundamentally different view of the international order, one where the equal sovereignty of every state does not apply, where there is an acknowledged hierarchy of power, and where domestic and international issues are highly interdependent.

Re-Irradiation: New Frontiers Carsten Nieder 2016-10-25 This book, now in its second edition, provides a comprehensive overview of current re-irradiation strategies, with detailed discussion of re-irradiation methods, technical aspects, the role of combined therapy with anticancer

drugs and hyperthermia, and normal tissue tolerance. In addition, disease specific chapters document recent clinical results and future research directions. All chapters from the first edition have been revised and updated to take account of the latest developments and research findings, including those from prospective studies. Due attention is paid to the exciting developments in the fields of proton irradiation and frameless image-guided ablative radiotherapy. The book documents fully how refined combined modality approaches and significant technical advances in radiation treatment planning and delivery have facilitated the re-irradiation of previously exposed volumes, allowing both palliative and curative approaches to be pursued at

various disease sites. Professionals involved in radiation treatment planning and multimodal oncology treatment will find it to be an invaluable aid in understanding the benefits and limitations of re-irradiation and in designing prospective trials.

**Overcoming School Refusal** Joanne

Garfi 2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school

refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

Safety and Security in Tourism C

Michael Hall 2012-12-06 How will the travel and tourism industry respond to the terrorist attacks on America? The recent terrorist attacks in the United States and their repercussions for the travel and leisure industries have focused more attention on tourism safety and security issues than ever before. The impact on tourism destinations and businesses, as well as on traveler behavior, will be significant. Recent events require further analysis not only of how travel safety may be improved but also how security issues may be seen in terms of tourism marketing and management so that the industry is able to better respond to such challenges. In this, an era of

turbulent global relationships, the need for destination marketing organizations to demonstrate that they are safe for tourists has become increasingly important. Negative publicity, often unrelated to on-the-ground reality, may also serve to affect tourist perceptions. Safety and Security in Tourism: Relationships, Management, and Marketing examines: the effects of the September 11, 2001 attacks on the tourism industry and how the industry is responding the importance of safety as a factor in destination or activity choice case studies of destination and business responses to past political instability and/or attacks against tourists safety, security and destination image the role of the media in influencing consumer perceptions of travel safety

*Road to Nowhere* Józef Mackiewicz 1964  
Ezra Pound's observation that "literature is news that STAYS news" certainly applies to *Road to Nowhere*

(Henry Regnery Company, 382 pages). This excellent novel, first published by a Polish exile in 1955, is consistently engaging and, for its aching, visceral power, still feels fresh.

**Leonora** Elena Poniatowska 2015-03-05  
Born in Lancashire as the wealthy heiress to her British father's textiles empire, Leonora Carrington was destined to live the kind of life only known by the moneyed classes. But even from a young age she rebelled against the strict rules of her social class, against her parents and against the hegemony of religion and conservative thought, and broke free to artistic and personal freedom. Today Carrington is recognised as the key female

Surrealist painter, and Poniatowska's fiction charms this exceptional character back to life more truthfully than any biography could. For a time Max Ernst's lover in Paris, Carrington rubbed elbows with Salvador Dalí, Marcel Duchamp, Joan Miró, André Breton and Pablo Picasso. When Ernst fled Paris at the outbreak of the Second World War, Carrington had a breakdown and was locked away in a Spanish asylum before escaping to Mexico, where she would work on the paintings which made her name. In the hands of legendary Mexican novelist Elena Poniatowska, Carrington's life becomes a whirlwind tribute to creative struggle and artistic revolution. Translated by Amanda Hopkinson.

**Mediating Languages and Cultures**  
Dieter Buttjes 1991 The history of

"language teaching" is shot through with methods and approaches to language learning - most recently with "communicative language teaching" - but this book demonstrates that a more differentiated and richer understanding of learning a foreign language is both necessary and desirable. Languages and cultures are interlinked and interdependent and their teaching and learning should be too. Learning another language is part of a complex process of learning and understanding other people's ways of life, ways of thinking and socio-economic experience

*Primo Levi* Matteo Mastragostino  
2021-03-22 "It's a pretty long story," Primo Levi tells a classroom of children, "so I'll try to make it simple." Translated from the original

Italian, this hauntingly illustrated comic tells the story of the Italian Jewish chemist who survived the camps at Auschwitz against all odds. Matteo Mastragostino draws on historical research, interviews, and Levi's own landmark books to piece together a fictionalized yet profoundly intimate portrait of a courageous figure. In the scene that emerges, Levi visits a group of schoolchildren to retell his life story and keep the memory of the Holocaust alive, answering innocent questions with hard truths. Sobering yet tender, Primo Levi extends a rare opportunity for readers both young and old to deepen their understanding of life, death, and the human spirit.

*Tourist Mobility and Advanced Tracking Technologies* Noam Shoval  
2009-09-10 The remarkable developments in tracking technologies

over the past decade have opened up a wealth of possibilities in terms of research into tourist spatial behaviour. To date, most research in the field has been based on data derived from less objective – hence methodologically problematic – sources. This book examines the various technologies available to track pedestrians and motorized vehicles as well as the moral, ethical and legal issues arising from the utilization of data thus obtained. The methodologies outlined in the book could prove revolutionary in terms of tourism research, management and planning.

**Conscious Breathing** Joy Manne, Ph.D.  
2004-08-13 Conscious Breathing presents contemporary Breathwork methods in a comprehensive, structured way for modern readers.

Emphasizing the practice as a way to access the most elevated states of consciousness and the deepest states of meditation, author Joy Manne shows how Breathwork can be applied to transpersonal, existential, past life, chakra, Kundalini, shamanic, and other experiences. Using detailed examples, case histories, and exercises, Conscious Breathing covers basic grounding and awareness, advanced breath and body-centered explorations, and explorations of biblical and religious teachings.

La Bella Lingua Dianne Hales

2009-05-12 A celebration of the language and culture of Italy, La Bella Lingua is the story of how a language shaped a nation, told against the backdrop of one woman's personal quest to speak fluent Italian. For anyone who has been to

Italy, the fantasy of living the Italian life is powerfully seductive. But to truly become Italian, one must learn the language. This is how Dianne Hales began her journey. In La Bella Lingua, she brings the story of her decades-long experience with the "the world's most loved and lovable language" together with explorations of Italy's history, literature, art, music, movies, lifestyle and food in a true opera amorosa – a labor of her love of Italy. Over the course of twenty-five years, she has studied Italian through Berlitz, books, CDs, podcasts, private tutorials and conversation groups, and, most importantly, time spent in Italy. In the process the Italian language became not just a passion and a pleasure, but a passport into Italy's storia and its very soul. She invites

readers to join her as she traces the evolution of Italian in the zesty graffiti on the walls of Pompeii, in Dante's incandescent cantos and in Boccaccio's bawdy Decameron. She portrays how social graces remain woven into the fabric of Italian: even the chipper "ciao," which does double duty as "hi" and "bye," reflects centuries of bella figura. And she exalts the glories of Italy's food and its rich and often uproarious gastronomic language: Italians deftly describe someone uptight as a baccala (dried cod), a busybody who noses into everything as a prezzemolo (parsley), a worthless or banal movie as a polpettone (large meatball). Like Dianne, readers of La Bella Lingua will find themselves innamorata, enchanted, by Italian, fascinated by its saga, tantalized by

its adventures, addicted to its sound, and ever eager to spend more time in its company.

### **Stereotactic Body Radiation Therapy**

Simon S. Lo 2012-08-28 Stereotactic

body radiation therapy (SBRT) has emerged as an important innovative treatment for various primary and metastatic cancers. This book provides a comprehensive and up-to-date account of the physical/technological, biological, and clinical aspects of SBRT. It will serve as a detailed resource for this rapidly developing treatment modality. The organ sites covered include lung, liver, spine, pancreas, prostate, adrenal, head and neck, and female reproductive tract.

Retrospective studies and prospective clinical trials on SBRT for various organ sites from around the world are

examined, and toxicities and normal tissue constraints are discussed. This book features unique insights from world-renowned experts in SBRT from North America, Asia, and Europe. It will be necessary reading for radiation oncologists, radiation oncology residents and fellows, medical physicists, medical physics residents, medical oncologists, surgical oncologists, and cancer scientists.

### **The Making of the Cretan Landscape**

Oliver Rackham 1996 This is the first book to help the visitor understand Crete's remarkable landscape, which is just as spectacular as the island's rich archaeological

heritage. Crete is a wonderful and dramatic island, a miniature continent with precipitous mountains, a hundred gorges, unique plants, extinct animals and lost civilisations, as well as the characteristic agricultural landscape of olive groves, vines and goats, Jennifer Moody and Oliver Rackham explain how the island's peculiar and extraordinary features, moulded and modified by centuries of human activity, have come together to create the landscape we see today. They also explain the formation and ecology of Crete's beautiful mountains and coastline, and the contemporary threats to the island's fragile natural beauty.
