Film Form Sergei Eisenstein 2014-06-17 A classic on the aesthetics of filmmaking from the pioneering Soviet director who made Battleship Potemkin. Though he completed only a half-dozen films, Sergei Eisenstein remains one of the great names in filmmaking, and is also renowned for his theory and analysis of the medium. Film Form collects twelve essays, written between 1928 and 1945, that demonstrate key points in the development of Eisenstein's film theory and in particular his analysis of the sound-film medium. Edited, translated, and with an introduction by Jay Leyda, this volume allows modern-day film students and fans to gain insights from the man who produced classics such as Alexander Nevsky and Ivan the Terrible and created the renowned "Odessa Steps" sequence.

Mikhail Larionov 2020-08-25 A large retrospect exhibition of Mikhail Larionov (1881-1964), one of the founders of Russian artistic Avant-garde and its acclaimed leader. Empowered by a gift for painting and a talent of experimental researcher, from the very beginning of his career he was making an enormous impact on the formation and evolution of a new art of the 20th century. The master's primitive-style works were the embodiment of the national version of Avant-garde. Larionov was a forefather of abstract art. His "proprietary" variant of non-figurative painting was called "Rayonism" (from the word "ray"). There will be about 500 exhibits showcasing all the principal fields of the artist's oeuvre, and also a wide range of interests of Larionov the collector. The exhibition will include pieces from Russian collections (State Russian Museum, art museums of Ryazan, Nizhny Novgorod, Ulyanovsk, Ufa, Krasnodar, Kazan) and foreign contributions (from Centre Pompidou, Museum Ludwig, Tate Gallery).

In Excess Masha Salazkina 2009-08-01 During the 1920s and '30s, Mexico attracted an international roster of artists and intellectuals—including Orson Welles, Katherine Anne Porter, and Leon Trotsky—who were drawn to the heady tumult engendered by battling cultural ideologies in an emerging center for the avant-garde. Against the backdrop of this cosmopolitan milieu, In Excess reconstructs the years that the renowned Soviet director Sergei Eisenstein spent in the country to work on his controversial film ¡Que Viva Mexico! Illuminating the inextricability of Eisenstein's oeuvre from the global cultures of modernity and film, Masha Salazkina situates this unfinished project within the twin contexts of postrevolutionary Mexico and the ideas of such contemporaneous thinkers as Walter Benjamin. In doing so, Salazkina explains how Eisenstein's engagement with Mexican mythology, politics, and art deeply influenced his ideas, particularly about sexuality. She also uncovers the role Eisenstein's bisexuality played in his creative thinking and identifies his use of the baroque as an important turn toward excess and hybrid forms. Beautifully illustrated with rare photographs, In Excess provides the most complete genealogy available of major shifts in this modern master's theories and aesthetics.

Financial Fraud Enforcement Task Force 2010 Eric H. Holder 2014-10-19 The financial crisis has impacted every American. It has presented not only fraud and deception in the finance and housing markets that helped fuel the crisis, but also the potential for fraudulent schemes to misuse the public's unprecedented investment in economic recovery. While we are aggressively confronting fraud born of the financial crisis, the reality is that we cannot prosecute our way out of the situation. Instead, we must address it with an equally broad and comprehensive enforcement response. This is the mission of the Financial Fraud Enforcement Task Force.

Expanding Eurasia Janusz Bugajski 2008 Moscows overarching ambition toward Europe is to expand the Eurasian space in which Russia is the dominant political player. For Moscow, Eurasianism involves two interconnected strategies: transforming Europe into an appendage of the Russian sphere of influence and debilitating Euro-Atlanticism by undercutting Europes connections with the United States. The most effective and realistic long-term Western strategy toward Russia needs to combine practical engagement with strategic assertiveness. Practical engagement focuses on the pursuit of cooperative relations where Western and Russian interests coincide, as in countering international terrorism and the proliferation of weapons of mass destruction or in the resolution of regional conflicts where Moscow can play a constructive role. Strategic assertiveness, as an essential complementary approach, must focus on vital long-range Western interests where Russias negative policies can be effectively countered by the European Union and NATO working in tandem to strengthen transatlanticism. As a primary principle, all NATO-EU allies must avoid compromising core interests through agreements with Russia that sacrifice one Western security priority to gain Kremlin support in another arena. Such compromises not only undermine Europes commitment to expand democratic security but also permit Russia to implement its Eurasian agenda.

Immoral Memories Sergei Eisenstein 2013-11-01 Republished for the first time since the 1980s, a legendary book on the cinema from one of the most important figures in the history of film Vivid, eccentric, and free-ranging, this memoir is written in a style reminiscent of the brilliant visual effects of montage and dynamic progression of the legendary Russian director. Eisenstein wittily portrays his life in Russia from the time of the Revolution, his travels in the West, and his encounters with an amazing medley of people on both sides of the Iron Curtain, including Charlie Chaplin, Marlene Dietrich, and Man Ray. With 48 pages of illustrations from the author's own collection, including photos and personal sketches, this is the fullest picture possible of a man and his films, from one of the most iconic eras of the art form.

The Grace Factor Barry Cook 2006-09-01 God has not given up on you or forgotten you! Father has always loved you. He has never stopped loving you. There is not one single thing that you have to do to gain or regain your Father's unconditional love. There is also nothing that you can do to make Him stop loving you. Jesus is The Grace Factor, and He is reaching from heaven to you with open arms-He longs for you above all else. Grace is what the whole gospel is based on, yet it is least experienced and talked about. If you have ever had unmet expectations, feel that you are too far out of reach to be helped, don't deserve forgiveness, have made bad choices or mistakes, have felt rejected by the religious crowd, have been hurt or wounded by others' words or actions, are struggling with regret, or feel that you are not worthy of God's love or acceptance-this book is for you. The Grace Factor explores the power of God, revealing why He gave us grace and the role it plays in our personal lives and in our mandate to reach the world with the love of the Creator.

The central personalities, their vigorous exchange of ideas, the social and political events that marked the emerging ideal of emancipation--all come to life in this absorbing and dramatic account. The author's history begins with the feminist, nihilist, and populist impulses of the 1860s and 1870s, and leads to the social mobilization campaigns of the early Soviet period.

Designing UNESCO Christopher E. M. Pearson 2017-07-05 Designing UNESCO: Art, Architecture and International Politics at Mid-Century represents the first full-length monograph on the genesis, construction and reception of the Paris headquarters of the United Nations' Educational, Scientific and Cultural Organization (UNESCO). The book traces the long and complex birth of UNESCO's permanent seat from its conception in 1950 to its inauguration in 1958, showing how its history constitutes a unique nexus of modernist practices in twentieth-century international politics, art, architecture and criticism. Drawing on a wide range of unpublished archival material and examining critical reception of the building in the local and international press, Christopher Pearson's analysis operates on formal, structural and theoretical levels, revealing many of the largely unspoken assumptions of modern architecture at mid-century and elucidating the conflicted relation between art and science in the post-war period. The volume also throws new light on many of the major architects and artists of the period, among them Breuer, Gropius, Le Corbusier and Eero Saarinen, as well as Picasso, Moore, Miró, Calder and Noguchi. Designing UNESCO is a compelling and original account of one of the most important, yet under-appreciated, buildings of twentieth-century modernism.

[A Dirty War](#) Anna Politkovskaya 2009-05-04 The Chechen War was supposed to be over in 1996 after the first Yeltsin campaign, but in the summer of 1999, the new Putin government decided, in their own words, to 'do the job properly'. Before all the bodies of those who had died in the first campaign had been located or identified, many more thousands would be slaughtered in another round of fighting. The first account to be written by a Russian woman, *A Dirty War* is an edgy and intense study of a conflict that shows no sign of being resolved. Exasperated by the Russian government's attempt to manipulate media coverage of the war, journalist Anna Politkovskaya undertook to go to Chechnya, to make regular reports and keep events in the public eye. In a series of despatches from July 1999 to January 2001 she vividly describes the atrocities and abuses of war, whether it be the corruption endemic in post-Communist Russia, in particular the government and the military, or the spurious arguments and abominable behaviour of the Chechen authorities. In these courageous reports, Politkovskaya excoriates male stupidity and brutality on both sides of the conflict and interviews the civilians whose homes and communities have been laid waste, leaving them nowhere to live, and nothing and no one to believe in.

This Thing of Darkness Joan Neuberger 2019-03-15 Sergei Eisenstein's unfinished masterpiece, *Ivan the Terrible*, was no ordinary movie. Commissioned by Joseph Stalin in 1941 to justify state terror in the sixteenth century and in the twentieth, the film's politics, style, and epic scope aroused controversy even before it was released. In *This Thing of Darkness*, Joan Neuberger offers a sweeping account of the conception, making, and reception of *Ivan the Terrible* that weaves together Eisenstein's expansive thinking and experimental practice with a groundbreaking new view of artistic production under Stalin. Drawing on Eisenstein's unpublished production notebooks, diaries, and manuscripts, Neuberger's riveting narrative chronicles Eisenstein's personal, creative, and political challenges and reveals the ways cinematic invention, artistic theory, political critique, and historical and psychological analysis went hand in hand in this famously complex film. Neuberger's bold arguments and daring insights into

every aspect of Eisenstein's work during this period, together with her ability to lucidly connect his wide-ranging late theory with his work on *Ivan*, show the director exploiting the institutions of Soviet artistic production not only to expose the cruelties of Stalin and his circle but to challenge the fundamental principles of Soviet ideology itself. *Ivan the Terrible*, she argues, shows us one of the world's greatest filmmakers and one of the 20th century's greatest artists observing the world around him and experimenting with every element of film art to explore the psychology of political ambition, uncover the history of recurring cycles of violence and lay bare the tragedy of absolute power.

[The Private Heinrich Himmler](#) Katrin Himmler 2016-03-08 At the end of World War II, it was assumed that the letters of Heinrich Himmler were lost. Yet sixty years after Himmler's capture by British troops and subsequent suicide, the letters mysteriously turned up in Tel Aviv and, in early 2014, excerpts were published for the first time by the Israeli newspaper *Yediot Aharonot* providing a rare, if jarring, glimpse into the family life of one of Hitler's top lieutenants while he was busy organizing the mass extermination of the Jews. It was generally held that Himmler, once appointed head of the SS, blended seamlessly into the Nazi hierarchy. The image that emerges, however, is more subtle. Himmler is seen here as a man whose observations can often be characterized by their unpleasant banality; a man whose obsession with family life ran alongside a brutal detachment from all things human, a serial killer who oversaw the persecution and extermination of all Jews and other non-Aryans, and those opposed to the regime. His letters remove any doubt that he was the architect of the Final Solution, and a man who was much closer to Hitler than many historians previously thought. The letters in this edition were arranged by Katrin Himmler, the great-niece of Heinrich and Marga Himmler while Michael Wildt, a renowned expert on the Nazi regime, provides historical context to the letters and their author. The entire work was translated by Thomas S. Hansen and Abby J. Hansen.
