Vietnam's Foreign Policy under Doi Moi Le Hong Hiep 2018-05-24 In 1986, the Communist Party of Vietnam (CPV) adopted the Doi Moi (Renovation) policy at its sixth national congress, opening up a new chapter in the country’s modern history. Under Doi Moi, Vietnam has undergone significant socio-economic, political and foreign policy reforms that have transformed the country in many meaningful ways. This edited volume aims to provide an in-depth analysis of the multiple aspects and transformations of Vietnam’s foreign policy over the past thirty years. The book is divided into three sections. The first covers the broader framework of Vietnam’s foreign policy making and the historical evolution of Vietnam’s diplomacy under Doi Moi. The second examines Vietnam’s bilateral relationships with its major partners, namely the United States, China, Japan, India, Russia, its smaller neighbours (Cambodia and Laos), and ASEAN. Finally, the book looks into two major issues in Vietnam’s current foreign policy: the management of the South China Sea disputes and the international economic integration process. As the most informative, updated and comprehensive volume on Vietnam’s foreign policy under Doi Moi, the book is a useful reference for academics, policymakers and students, as well as anyone interested in contemporary Vietnam in general and its foreign policy in particular.

Reforming the Russian Industrial Workplace Elena Shulzhenko 2017-04-21 Based on extensive original research, this book explores how far the Soviet pattern of industrial workplace organisation, characterised by a high level of management discretion, authoritarian control and the use of punitive methods on the shop-floor, has been replaced by internationally established practices, with a greater emphasis on a lean organisation and employee involvement in quality improvement. The book explores how the market reforms of the 1990s raised companies’ attention to product quality but did not lead to a change in the management methods, which only began with the increased internationalisation of the Russian economy in the 2000s. The book includes a rich in-depth study of multinational and domestic companies, and argues that a move from the Soviet pattern of workplace organisation to new practices is only likely to occur in companies with strong ties to international partners, who provide support for, and audit the implementation and upholding of, international management standards. The research shows that local companies not exposed to such international collaboration continue with the old methods.

Science, Women and Revolution in Russia Koblitz 2014-01-02 While the women's movement might seem like a relatively new concept, Russian women of the 1860s deserve to be acknowledged as individuals who changed the direction of science and opened the doors of higher education to women throughout Europe. The 1860’s and 1870’s witnessed a rise in women’s consciousness and the beginnings of the Russian revolutionary movement that saw women pursue and receive doctorates in many areas of science. These same women went on to become some of the brightest in their fields. This book provides a look at Russian women scientists of the 1860’s, their personal independence, and technical and literary achievements that made science the popular social movement of the time and changed the face of the Russian intellectual culture.

Women, Education, and Agency, 1600-2000 Jean Spence 2009-09-10 This collection of essays brings together an international roster of contributors to provide historical insight into women's agency and activism in education throughout from the seventeenth to the twentieth century. Topics discussed range from the strategies adopted by individual women to achieve a personal education and the influence of educated women upon their social environment, to the organized efforts of groups of women to pursue broader feminist goals in an educational context. The collection is designed to recover the variety of the voices of women inhabiting different geographical and social contexts while highlighting commonality and continuity with reference to creativity, achievement, and the management and transgression of structures of gender inequality.

The Politics of Knowledge in Central Asia Sarah Amsler 2007-04-24 Through careful historical and ethnographic research and extensive use of local scholarly works, this book provides a persuasive and careful analysis of the production of knowledge in Central Asia. The author demonstrates that classical theories of science and society are inadequate for understanding the science project in Central Asia. Instead, a critical understanding of local science is more appropriate. In the region, the professional and political ethos of Marxism-Leninism was incorporated into the logic of science on the periphery of the Soviet empire. This book reveals that science, organizes and constructed by Soviet rule, was also defined by individual efforts of local scientists. Their work to establish themselves ‘between Marx and the market’ is therefore creating new political economies of knowledge at the edge of the scientific world system.

Language and Culture in the Intercultural World Vesna Mikolić 2020-12-09 The intensification of contacts between cultures and languages has a major impact on all social spheres today. Multiculturalism and multilingualism are important elements of the local, regional, national and global community. Much of the world’s conflict stems from the contrast between globalization and nationalism, fuelled by religions, racial divisions, traditions and other cultural particularities. Focusing mainly on the situation in Central and South-eastern Europe, this book addresses how cultural identities develop through tourism, education, literature and other social fields, and how language and literature teaching should be planned in this context. It consists of the following sections: Language, Culture and Tourism; Interculturalism, Multilingualism and Approaches to Language Learning; and Culture in Literature and Translation. The volume will be of interest to teachers and researchers of cultural and tourism studies, linguistics and language learning, literary studies and translation, while also addressing wider readers interested in contemporary intercultural society.

Grappelli Licks Tim Kliphuis 2016-01-28 Do you want to sound more like the French maestro Stephan Grappelli? Here is the answer. I've selected around 250 classic Grappelli licks for you to learn. The Java Tutorial Sharon Biocca Zakhour 2013-02-27 The Java® Tutorial, Fifth Edition, is based on Release 7 of the Java Platform Standard Edition. This revised and updated edition introduces the new features added to the platform, including a section on NIO.2, the new file I/O API, and information on migrating legacy code to the new API. The deployment coverage has also been expanded, with new chapters such as “Doing More with Rich Internet Applications” and “Deployment in Depth,” and a section on the fork/join feature has been added to the chapter on concurrency. Information reflecting Project Coin developments, including the new try-with-resources statement, the ability to catch more than one type of exception with a single exception handler, support for binary literals, and diamond syntax, which results in cleaner generics code, has been added where appropriate. The chapters covering generics, Java Web Start, and applets have also been updated. In addition, if you plan to take one of the Java SE 7 certification exams, this guide can help. A special appendix, “Preparing for Java Programming Language Certification,” lists the three exams available, details the items covered on each exam, and provides cross-references to where more information about each topic appears in the text. All of the material has been thoroughly reviewed by members of Oracle Java engineering to ensure that the information is accurate and up to date.

The Medicinal Chef Dale Pinnock 2021-03-04 In this best-selling cookbook, TV’s nutrition expert Dale Pinnock presents his unique and inspiring approach to healthy cooking. With 80 simple, tasty recipes, Dale shows how easy it can be to use food to benefit your health and complement conventional treatment. Alongside the recipes there is a glossary of key ingredients and the nutritional benefits they can bring, as well as advice on how food can make a real difference to more than thirty ailments and nine key bodily systems. Dale’s delicious dishes, such as his date and walnut Energy Bombs and Pineapple Zing Smoothie, really can help give a boost to all of your body’s systems and improve energy levels. Try the filling Tuna Steaks with Sweet Potato Wedges and Spring Greens packed full of Omega 3 which reduces inflammation caused by arthritis and even helps alleviate depression. From the The Famous Flu Fighter soup to Greek Pitta Pizza, and even decadent desserts such as Cheating Chocolate-Orange Delight, every recipe is easy to shop for and quick to prepare. With simple symbols to indicate which conditions each recipe can help, eating your way to good health has never been easier or more delicious.

The Soviet Invasion of Finland, 1939-40 Carl Van Dyke 2013-01-11 Western accounts of the Soviet-Finnish war have been reliant on Western sources. Using Russian archival and previously classified secondary sources to document the experience of the Red Army in conflict with Finland, Carl Van Dyke offers a reassessment of the conflict.

Sustainable Value Management–New Concepts and Contemporary Trends Dariusz Zarzecki 2020-12-29 Sustainable value management reveals a new space for studying business models. The traditional approach is based on the assumption that the goal of any business is to make money. All decisions regarding supply and production should be made to maximize profit. The discrepancy in creating non-economic value is sometimes the result of separating ownership from control over an enterprise. Although shareholders are interested in maximizing profit, management that actually makes decisions can also pursue other goals. In addition to economic aspects, the management intentions of modern managers are also influenced by factors arising from the organizational culture built, co-created within the organization and sometimes with the participation of external actors such as suppliers and customers. The sources of the creation of social values will be the management intentions of top management, often initiated by the adopted values and rules on the basis of which resources are bound within the structure of the business model. The value of sustainability is based on the identification of those creative sources that relate to economic and social value. Economic value is created through social value and vice versa. This allows the complementarity of the value created to be mutually supportive. The business model that integrates both of these values should be more resistant to crises than the one that is oriented only toward producing economic value. Concurrent implementation of economic and social goals increases resilience and affects the success of modern business models. This is due to the specificity of the business ecosystem that is built as part of the business model, which, in essence, is based on the use of social factors to merge the business model into a complex ecosystem capable of producing value.

Italian Project 1a Telis Marin 2013 The Italian project 1 is the first level of a modern multimedia course of Italian language. Suitable to adolescent and adult students. It provides a balanced information, with pleasant and amusing conversation and useful grammatical examples. Introduces students to modern Italy and its culture.
